Step 1

Use Reliable Water Base Sealer as the primary coat to protect the base of emulsion paint from deterioration. It is used to give maximum protection against moisture & alkali surfaces increasing efficiency of the top coat.

Step 2

Apply Reliable Wall Filling putty to fill cracks, holes, dents and pores on all types of uneven surfaces for a smooth and even finish

Step 3

Reliable Weather Protector is an acrylic emulsion paint specially formulated for exterior walls & is extremely durable against weather by adhering well to all type of exterior wall surfaces. Its breakthrough formula provides tough resistance against dirt, algae, flaking and alkali.

Worth doing, worth Reliable
