Step 1

Apply Reliable Wall Primer Sealer which is a solvent based primer specially formulated to provide excellent alkali resistance. It is a primer with good adhesion property and forms an excellent barrier coat against alkalinity for both new and already painted walls.

Step 2

Apply Reliable Red Oxide Primer which is specially formulated primer for use on ferrous and non ferrous metals. It can also be used on treated or well weathered galvanised substrates.

Step 3

Reliable Synthetic Enamel is an oil modified alkyd-based paint for glossy finish of Interior & Exterior, Metal & Wood surfaces to leave them with a touch Elegance & Living colours to your sweet home.

Worth doing, worth Reliable
